Commercial recycling really pays off...

A Great Time to Save!

The challenging economic climate makes reducing operating costs even more important. One of the easiest ways to save on your garbage bill is to remove recyclable materials from your waste stream. Commercial recycling moves these recyclable materials out of your trash and into your recycling containers. The result is lower trash volumes and greater savings on your garbage bill.

If you don't have a recycling program underway, then this is a great time to start. If you are already saving money by recycling, then take a moment to review your program to insure that you are recycling all materials possible.

Commercial recycling is provided

Keeping operational costs as low as possible is even more important in these difficult economic times. A commercial recycling program is an easy way to keep your garbage bill as low as possible.

at no extra charge to commercial customers and is available to businesses and multifamily rental units of five or more units. **VGS** also provides all the bins and collection services for these materials. We will deliver extra recycling containers or make extra collections of recyclable materials anytime during the year. Just call **VGS** at 552-

3110 for assistance.

Experts from **Vallejo Garbage Service** will design a commercial recycling program that is just right for your business.

Courtesy Lien Notices

Notices of delinquent accounts will be mailed to customers in February. Customers can avoid liens on their property by checking their balances early. Please call 552-3110 for questions and to check your account balances.

Coats for Kids Success

Vallejo Garbage Service employees are shown above sorting through donated items during the Coats for Kids drive that was held just before the holidays. The donated coats are now helping keep Vallejo residents warm.

Help Keep Employees Safe!

VGS employees hand-sort most of the recyclable materials that are set out by customers. It is important to help keep these workers safe by only placing proper materials into recycling and trash containers.

Like all businesses, maintaining a safe work environment is top on our list. Please help by making sure only approved materials are placed in your trash or recyclables. Our employees hand-sort materials, and hazardous or dangerous items mixed with other materials can be harmful. If you have questions about what can and cannot be placed out, just call us at 552-3110 or click us at www.vallejogarbage.com.

A World of Information

Click on the VGS website for a host of recycling and disposal updates, holiday schedules, and other important information. Just click on: www.vallejogarbage.com

No Food or Garbage

Food waste, garbage, or other non-recyclable materials will cause recycling containers to be tagged and either left unemptied or emptied and charged as garbage.

We Are Ready to Help!

Just call to have extra materials collected at your regular collection times. We also provide additional collections during the week. We will deliver debris boxes of 20 yards or more for periodic garbage overloads. There are extra charges for these services. Call the office at 552-3110 for prices and information.

VGS will empty cardboard containers as many times as needed or deliver additional or larger recycling containers for no extra charge.

Removing recyclable materials from the trash is an easy way for every commercial customer to save on their garbage bill. **Vallejo Garbage Service** Recycling Manager Lisa LeFebvre will provide a free recycling analysis to any business or commercial rental complex of 5 units or more. She will come to your location, analyze your trash flow, and then recommend a customized program that works best for you. To get started recycling, contact her at 552-3110 or by email at LLeFebvre@vallejogarbage.com.
